Reading/Fine Motor Challenge

Color in a feather every time you read a book together at home or if your student completes 10 minutes of fine motor. Once ALL the feathers are filled, bring this paper back to school for a PRIZE!

Fine motor examples: Practice writing your name, trace or draw shapes, use scissors, build a LEGO tower, do a puzzle, play with play-doh, trace or write numbers or letters, put beads on a string, draw or color a picture, etc.
